

**Ban assault
rifles, not
books.**

**In America, it's easier to obtain an assault rifle
than some classic novels.
And our children are paying the price.
Last year, while some people fought to add more
than 2,500 new titles to the banned book registry,
there was a school shooting almost every day.**

Who are we really protecting?

This is a mock book cover designed to be wrapped around your banned book and draw attention to the fact that it's easier to buy an assault rifle in the U.S. than some books.

Instructions: Print, then fold using the pink score guides. Then trim using the crop marks. If too large for your book, there's room, top and bottom, to trim off as needed.
